

# 8 in 1 Network Tool Kit | RJ45 Crimping Tool Set with Tester, Wire Cutter & Cat6 Connectors

PRODUCT CODE: 8P6PP

The RJ45 Crimping Tool Kit is a complete toolset designed for network cabling applications. This kit is suitable for cutting, stripping, and crimping RJ45, RJ12, and RJ11 connectors. Made from durable steel and plastic, it ensures long-lasting use.

## Key Features

- Multi-Function Crimping Tool: Capable of stripping, cutting, and crimping RJ45, RJ12, and RJ11 connectors.
- Network Cable Tester: Quickly tests LAN/Ethernet connections. (9V battery not included.)
- Anti-Burning Protection: Withstands 60V PoE testing, protecting the device in router-to-line applications.
- Wire Cutter Pliers & Cable Stripper: Ensures precise cable cutting and stripping without damaging internal wiring.
- Complete Accessory Kit: Includes 50pcs Cat6 pass-through connectors, 50pcs strain relief boots, a mini cable stripper, and spare blades.

## Specification

- Material: Steel + Plastic
- Type: RJ45 Crimping Tool
- Packing: Box packaging
- Packing Size: 240×200×60mm
- Packing Weight: 0.85kg
- Application: Network repairing, cable testing & installation
