

# Fiber Optic Cable Stripping Tool 1.9mm - 3.0mm

The 1.9-3.0mm Fiber Optic Stripper high-precision tool designed for stripping and cutting fiber optic cables. It ensures precise longitudinal cutting of fiber bundle tubes and protective sheathing, providing efficient and damage-free fiber preparation for splicing and installation.

## Key Features

- Wide Compatibility: Suitable for 1.9mm to 3.0mm outer diameter fiber optic cables
- Ergonomic Design: Compact and lightweight for ease of use in field applications
- Precision Cutting: Ensures clean and accurate stripping without damaging internal fibers
- Multipurpose Use: Ideal for fiber optic splicing, installation, and maintenance

Parameter	Specification
Model Code	AUA-05
Blade Material	SK-5 alloy, quenched and forged for enhanced durability
Supported Fiber Size	1.9mm - 3.0mm outer diameter
Size	99 x 38 x 18mm
Weight	38.5g
Application	Fiber optic cable stripping & longitudinal cutting
