

Armored Fiber Optic Cable Sheath Stripper 8 - 28.6mm

The Armored Fiber Optic Cable Sheath Stripper (8-28.6mm) is a high-precision stripping tool designed to remove the protective outer sheath of armored multi-core optical cables. Its robust alloy construction and replaceable cutting blade ensure durability and ease of use, making it an essential tool for fiber optic network installations and maintenance.

Key Features

- **Wide Stripping Range:** Supports cable diameters from 8mm to 28.6mm, making it suitable for various armored fiber cables.
- **Dual Cutting Modes:** Capable of longitudinal and transverse (across) cutting, providing flexibility for different stripping requirements.
- **Replaceable Blade:** Sharp and durable cutting blade ensures a clean cut without damaging internal fibers and can be easily replaced.
- **High-Quality Alloy Construction:** Provides stability, strength, and long-term durability for heavy-duty applications.
- **Precision Pulley System:** Allows smooth and stable cable movement, reducing manual effort and improving accuracy.
- **Safety & Ease of Use:** Ergonomically designed with an adjustable blade depth to prevent fiber damage.

Parameter	Specification
Model Code	MLLR1
Material Type	High-Strength Aluminum Alloy
Stripping Diameter	8mm - 28.6mm
Cutting Modes	Longitudinal & Transverse
Blade Type	Replaceable Steel Cutter Head
Package Size	13.8 × 7.5 × 4cm
Package Weight	310g
Operation	Pulley-assisted cable movement
