RJ45 & RJ11 Network Cable Tester

PRODUCT CODE: NSS-468A

The RJ45 & RJ11 Network Cable Tester is an essential tool for network technicians and IT professionals. This device allows users to quickly and accurately diagnose wiring faults, open circuits, short circuits, and miswirings in Ethernet (RJ45) and telephone (RJ11) cables. With its easy-to-use interface and LED indicators, it ensures efficient troubleshooting of network infrastructures, making it a must-have for both home and professional use.

Key Features

- Product Name: RJ45 & RJ11 Network Cable Tester
- Brand: OEM
- Material: Plastic
- Color: White and Green
- Power Supply: Usually without battery, 9V Battery available if needed
- Display: LED Light
- Application: Telephone cables and Ethernet LAN cables
- Function: Testing cables

Specification

- Supported Cable Types: RJ45 (Cat5, Cat5e, Cat6) and RJ11
- Test Modes: Automatic and Manual
- Operating Voltage: DC 9V (6F22 Battery, optional)
- Operating Temperature: -10°C ~ +60°C
- Dimensions:
- Master Unit: 103mm x 68mm x 25mm
- Remote Unit: 103mm x 38mm x 25mm
- Weight: Approx. 160g (without battery)
